

Experiment #1: **Data types of a programming language**

**Experiment questions:**

- What is your programming language?
- What is the compiler and version number?
- List down the minimum and maximum value of each data type

**Example data type:**

Data type	Range (N/A if not applicable)
Unsigned char	
Signed char	
Unsigned short int	
Signed short int	
Unsigned int	
Signed int	
Unsigned long int	
Signed long int	
Unsigned long long int	
Signed long long int	
Pointer	
Float	
Double	
Long double	
Other data type ...
